

Data Science @ Uni Vienna

## **From LotsOfCode to NoCode: Runtime-optimized analytics** Anastasia Ailamaki, EPFL Lausanne

## Lecture Series: What is Data Science?

The ever-increasing demand for diverse real-time analysis on exponentially growing data has brought a series of new system design. Prof. Ailamaki will discuss novel just-in-time (JIT) systems which make and actuate decisions at runtime, and explain how the individual JIT solutions synthesise a real-time intelligence paradigm that helps resolve most system performance challenges.

## Friday, 21 October 2022 @ 13:00 CEST

**BIG Hörsaal lecture hall** University of Vienna, TP Tiefparterre Universitätsring 1, 1010 Vienna
